

Maywood Public Schools
Emergency Virtual or Remote Instruction Program
2022-2023
REVISED - August, 2022

In April 2020, Governor Murphy issued an executive order that became P.L.2020, c.27. This law provides for the continuity of instruction in the event of a public-health related district closure so that LEAs can utilize virtual or remote instruction to satisfy the 180-day requirement pursuant to N.J.S.A. 18A:7F-9. In order to provide transparency and ensure that New Jersey students continue to receive high quality, standards-based instruction, each school district, charter school, renaissance school project and Approved Private School for Students with Disabilities (APSSDs) must annually submit its proposed program for virtual or remote instruction (plan) to the Commissioner of Education. This plan would be implemented during a district closure lasting more than three consecutive school days due to a declared state of emergency, declared public health emergency, or a directive by the appropriate health agency or officer to institute a public health-related closure. A superintendent must consult with the board of education, if practicable, prior to implementing the school district's plan of virtual or remote instruction. A day of virtual or remote instruction, if instituted under a plan approved by the Commissioner of Education, is considered the equivalent of a full day of school attendance for the purposes of meeting State and local graduation requirements, awarding of course credit, and such other matters as determined by the Commissioner of Education.

LEAs must include the statutory requirements listed in the "LEA Guidance for Chapter 27 Emergency Virtual or Remote Instruction Programs for the 2021-2022 SY," in their plans for virtual or remote instruction for the 2021- 2022 school year. The 2021-2022 plans must be approved by the LEA's board of education or board of trustees (board), submitted to the county office of education for review and approval, and posted on the LEA's website. The board-approved plan and checklist are due to the county office of education no later than October 29, 2021. In the event that the LEA is directed to provide virtual or remote instruction before garnering county office approval, the approval date will be retroactive. Questions should be directed to the county office of education.

Daily attendance procedures are altered in a remote/ virtual environment to provide for attendance to be taken via online classroom tools. Teachers post attendance within the Student Information System. School nurses and admin rectify attendance records once final daily attendance is submitted by classroom teachers. Administration and specials teachers contact families of those students not on line and not having noted an absence.

1. **To be Marked as Present-** Students must login to the class meeting on Google Meet. If there are any issues with accessing the meeting, parents are directed to email the teacher and listed admin or call the school nurse voicemail to leave a message notifying that the student is present for the day of remote instruction.
2. **Absences** - Parents/ Guardians will continue to mark attendance directly through our Student Information System, Genesis. The school nurse will follow up with families re: student absences as posted in Genesis. If necessary, the district works with local law enforcement to perform wellness checks on students for whom there are concerns based upon patterns of absences.

B. STAFF ATTENDANCE

Staff will report remotely/ virtually as stated via the collective bargaining agreement. Staff Attendance will be taken via online staff attendance submission each day of remote / virtual instruction. Staff members will submit absences via the Staff Absence Management system, Frontline Absence Management (AESOP).

Staff Absences: Full and Partial Day & Responsibilities During Absence

Following usual procedures, Staff Absences (for all reasons) must be accounted for in [AESOP /Frontline Aesop Management](#).

1. Responsibilities during Absence:

- Staff members provide “substitute plans” in Google Classroom including:
 - a post to take student attendance at the start of the day;
 - classwork for the day
 - clear messaging to students/ parents that teacher-student interactions may not be feasible for the day due to absence.

2. Partial-Day Absences -In the event a staff member begins, but is unable to conclude a full work day, (s)he should email his/ her supervisor and other co-teachers, etc. Sub Plans and notice of the absence should be shared with students via the remote learning platform. The partial-day absence should be noted in AESOP as per usual. *See above regarding student attendance.
