

District Families:

As noted in a communication of last week, the District will survey its families to gain an understanding of their preliminary intentions for Phase 2. The survey of which I speak is found at the end of this communication and **we ask that all families complete the survey by October 10th at the latest.** Please complete a separate survey for each child who attends school in the District.

This survey is **NOT BINDING** but it is extremely important for us to get an estimate as to the number of students who will be OPT OUTS and HYBRIDS for Phase 2. The information we receive in this survey will be analyzed and used to finalize the plan for Phase 2 which will include the specifics regarding number of days in person and length of the school day. It will also allow us to make decisions regarding the possibility of lunch and perhaps before/aftercare services. **NOT BINDING**, but extremely important, and we ask for 100% response by no later than October 10th.
